Professional Summary

Seasoned Application Manager with a 15-year track record leading end-to-end technology transformations in the car rental industry. Expert at modernizing business platforms, optimizing multi-branch operations, and driving double-digit gains in efficiency, cost savings, and digital revenue growth.

Core competencies

- Strategic end-to-end delivery of enterprise car rental and fleet management platforms (Rentey, Fleetzy, Garagey, CarPro).
- Drive business process transformation through the strategic harmonization of Rental Applications, ERP, and CRM systems to enable scalable and efficient customer lifecycle management.
- Multi-site workflow optimization and automation to drive operational efficiency and service excellence.
- Advanced SaaS integration and vendor negotiation for robust digital ecosystems.
- Agile project management to accelerate enterprise-wide technology adoption and innovation.
- Architecting middleware solutions for seamless third-party connectivity and data exchange.
- Executive-level KPI reporting and analytics dashboard design to inform decision-making.
- Power BI, SSRS, and SQL-driven insights for C-suite strategy and performance optimization.
- Sophisticated data modeling and analytics (SSAS, DAX, MDX) for comprehensive business intelligence.
- T-SQL solution engineering for high-performance, reliable data environments.
- Senior stakeholder engagement, aligning IT initiatives with overarching business goals.
- Legacy-to-modern system migration leadership, ensuring business continuity and risk mitigation.
- Bespoke application development (ASP.NET MVC) automating critical business processes
- Architecting scalable, resilient, and efficient technology frameworks that support operational excellence and future business growth
- Architecting scalable, resilient, and efficient technology frameworks that support operational excellence and future business growth
